Want Support?

I offer two support options as you're creating your tiny book:

Organize Your Ideas

If you struggle to organize your ideas into a cohesive plan, we'll meet to create an outline for your tiny book. This is a one-hour standalone session. I helped one recent client go from “I don't know what to write about” to choosing a topic for a series of six tiny books; deciding on the six sub-topics; and outlining the first tiny book with a beginning, middle and end. In one hour.

Tiny Book from Concept to Completion

We'll work together over three months to take your tiny book from concept to completion. We'll brainstorm and choose a topic for your tiny book; outline it; I'll read it and cheer you on (and give feedback only if you want it). My team will also manage the copyediting, design and printing process so you end up holding a book you love in your hands.
